

Who we are

We both started our career in hairdressing and worked in some of Glasgow's top salons for many years distinguishing ourselves to a level of advanced hairdressing. We met as young hairdressers, and soon we found out that we worked very well together. We then progressed onto make-up artistry in order to increase our prospects and potential, attaining HND qualifications. We now have a combined 26 years industrial experience. After 10 years of working together we now work very effectively, maximising creativity in the timescales we are allocated. We are confident that our initiative can provide a calming, relaxing atmosphere and produce that look you have been dreaming about for your wedding day.
